THE ORIGIN OF PORTAPIVOT

Portapivot is a Belgian brand, created and engineered by the designers of ANYWAY doors.

ANYWAY was founded in 1995 and specializes in high-end, made-to-measure interior doors. Various international awards have put ANYWAY's products in the spotlight. After focusing exclusively on the local market in Belgium, The Netherlands and Luxembourg, it was time to meet international demands.

Since its launch in 2017, Portapivot makes the 'Room Divider' door system and its patented hinge system accessible through e-commerce. Custom-made, self-assembly kits are shipped to interior professionals, door installers and high-end carpenters across the globe.

As of 2021, Portapivot is part of Theuma Group.

INGENIOUS HARDWARE SOLUTIONS DESIGNED TO CREATE VISUAL MASTERPIECES

At Portapivot, we combine the strength of our technology, engineering and design capabilities, with local craftsmanship all over the world.

ANODIZED ALUMINIUM

Anodising is an electrochemical process which converts the metal surface into a decorative, durable and corrosion resistant oxide layer. This aluminium oxide is not applied to the surface like a coating or paint, but is fully integrated with the underlying aluminium substrate. This means it cannot chip or peel.

Anodized aluminium is considered environmentally safe, producing few harmful effects on land, air, or water.

- Attractive appearance whilst retaining metal character
- Durable, corrosion-resistant and colourfast
- /î™Ë ¥k ‘ Ë U 3 ‘î U ¥k ‘î U 4
- /î™Ë ¥k ‘ -™ 3 ?‘ -Uî‘ / k`k^Ë4
- Low maintenance

EASY INSTALLATION

A great deal of attention went into easy integration and installation on site, to ensure that the resulting pivot system could be used in both new and existing homes, regardless the construction. Stealthpivot hinges are always ^k-`¥ k` ¥kŽ k2 ¥: Û`?™: Ükk‘ î` î ™kU? k‘ reinforced ceiling surface, without the need for any -?U¥9?` ÛÊ¥-‘ ™&
