FOX | BERNHARD OSANN

“As in nature, a minimal of energy and material can ful l a function at its best”.

ENG
FOX is a dimmable LED oor lamp. Steel matte black painted structure and base. Aluminum spot with optional antiglare lter. Its slewing arc and its directable cylindric head allow to exibly orientate the light beam for a consistent warm di used light.

ITA
FOX è una piantana LED dimmerabile per l’illuminazione diretta. Struttura e base in acciaio verniciato nero opaco. Spot in alluminio con ltro antiabbagliamento opzionale. Il suo arco di rotazione e la sua testa cilindrica orientabile, consentono di dirigere in modo essibile il fascio luminoso per una luce uniforme e calda.

DEU
LED-Stehleuchte für direkte Beleuchtung. Matt-schwarze Stahlstruktur. Spot-Kopf aus Aluminium mit optionaler Wabenblende als Blendschutz. Der schwenkbare Bogen und der verstellbare zylindrischer Spot ermöglichen die exible Positionierung des warmen Lichtstrahles.

FR
FOX est un lampadaire LED dimmable. Structure et base en acier peint noir mat. Spot en aluminium avec ltre optionnel nid d’abeille pour anti-éblouissement. Son arc de pivotement et sa tête cylindrique orientable permettent d’orienter avec exibilité le faisceau lumineux pour une lumière di use chaude et uniforme.

SWAN | BERNHARD OSANN

“I am fascinated by kinetic objects and thus searched for a new way to get a wall lamp moving.”

ENG
SWAN is a dimmable LED wall lamp for direct lighting. Aluminium matte black painted structure. Arm rotation of 40° vertically, contained by a leathered counterbalance, and 180° horizontally. Its directable cylindric head allows to exibly orientate the light beam, with optional antiglare lter. Dimmer on cable.

ITA
SWAN è una lampada da parete a LED dimmerabile. Struttura in alluminio nero opaco. Il braccio può essere ruotato orizzontalmente di 180° e verticalmente di 40°, grazie a un contrappeso rivestito in cuoio. Lo spot cilindrico con ltro antiabbagliamento opzionale, consente di orientare il fascio luminoso in modo essibile. Dimmer sul cavo.

DEU
SWAN ist eine dimmbare LED-Wandleuchte. Der Arm aus matt-schwarzem Aluminium ist um 180° vertikal-schwenkbar. Die Höhe des Armes wird mit Hilfe des Gegengewichts aus Leder um bis zu 40° eingestellt. Der Spot kann nach Wunsch orientiert werden. Optionale Waben-Blende als Blendschutz im Lieferumfang enthalten. Dimmer am Kabel.

FR
SWAN est une applique LED dimmable pour un éclairage direct. Structure en aluminium peint en noir mat. Rotation verticale du bras de 40°, contenue par un contrepoids en cuir, et horizontalement de 180°. Sa tête cylindrique orientable avec ltre optionnel nid d'abeille pour anti-éblouissement permet d'orienter avec exibilité le faisceau lumineux. Dimmer sur câble.

Bernhard Osann, born in Augsburg, runs his design studio in Hamburg since 2014.
He studied at the University of Fine Arts in Hamburg.

He experiments with physical laws and geometrical shapes to nd new unconventional solutions to simplify objects. The results are minimalistic dynamic constructions that move, interact with space and invite you to connect. During the design process, functionality and producibility are always on focus.

SWAN and FOX are examples of the many successful collaborations between Bernhard Osann and Nemo, in both cases e ectively combining conceptualization and technicality.

KEPLER PETITE | ARIHIRO MIYAKE

“I am drawn to experimenting with techniques never tried before, which of course leads to challenging projects.”

ENG
The smallest version of the KEPLER collection, with downlight emission for direct lighting. Suspension lamp in extruded aluminum powder coated. Available in matte white, black and gold. The continuous linear structure is inspired by the geometric principle of the Moebius strip and realised using a three-dimensional process of shaping the extruded aluminium structure.

ITA
Versione dalle dimensioni più ridotte della collezione KEPLER, disponibile solo in downlight. Lampada a sospensione in estruso d'alluminio verniciata a polveri. Disponibile nelle niture opache bianco, nero e oro. La linea continua è realizzata attraverso un processo di lavorazione tridimensionale dell'estruso di alluminio ingegnerizzato da Nemo ed è disegnata sulla base del principio geometrico del nastro di Moebius.

DEU
Die kleine Version der KEPLER mit Downlight für direkte Beleuchtung. Die Struktur besteht aus einer Aluminium-Extrusion, das durch ein von Nemo entwickeltes dreidimensionales Bearbeitungsverfahren nach dem geometrischen Prinzip des Möbius-Streifens hergestellt wird. Verfügbar in matter Schwarz-, Weiß- oder Goldlackierung.

FR
Version aux dimensions encore plus réduites de la collection KEPLER, disponible uniquement en downlight. Suspension en aluminium extrudé peint. Disponible en blanc mat, noir et doré. La ligne continue, dessinée sur la base du principe géométrique du ruban de Moebius, est réalisée grâce à un procédé d'usinage tridimentionnel de l'extrudé d'aluminium.

Arihiro Miyake was born in Japan in 1975. He started his design studies in his motherland at Kobe Design University, then moved to Finland to nish a Master’s degree in furniture and space design at Aalto University.

Arihiro Miyake Studio opened in 2014, allowing him to investigate multiple areas including interior, product and lighting design. His collaboration with Nemo started with projects such as In the Wind and Kepler, creating new paradigms in the lighting world.

TUBES CEILING | CHARLES KALPAKIAN

“Suspended without gravity, enlightened with technology”.

ENG
The latest addition to the TUBES collection, composed of tubular elements in extruded aluminum. A more compact and powerful ceiling version, with two vertical tubes, one xed to the ceiling and the other one rotatable like an arm and adjustable to user needs. Both cylinders have a 340 ° rotation. Available in white and black.
Opal polycarbonate di users.

ITA
La collezione TUBES si arricchisce di una nuova versione a so tto più compatta e potente, regolabile in base a di erenti esigenze. Due elementi tubolari a plafone ruotano di 340°: il primo ssato al so tto in verticale ruota su se stesso, mentre l’altro disegna una parabola. Disponibile in bianco o nero. Di usori in policarbonato opalino.

DEU
Die neue Ergänzung der TUBES-Kollektion, bestehend aus röhrenförmigen Elementen aus stranggepresstem Aluminium. Diese Deckenversion ist kompakter und kräftiger mit seinen 2 vertikalen Röhren, eine an der Decke befestigt und die andere dreht sich wie ein Arm, einstellbar auf die Bedürfnisse des Nutzers. Beide Zylinder können um 340° rotiert werden. In den Ausführungen Weiß und Schwarz erhältlich. Opal Polycarbonat Di usoren.

FR
Le dernier arrivée de la collection TUBES, composé d’éléments tubulaires en aluminium extrudé. Cette version à plafond est plus compacte et plus puissante avec 2 tubes verticaux, l’un xé au plafond et l’autre tournant comme un bras, réglable selon les besoins de l’utilisateur. Les deux cylindres ont une rotation de 340 °. Disponible en blanche et noir. Di useurs en polycarbonate opale.

Charles Kalpakian was born in Beirut in 1982. In 2011, after collaborating with Christophe Pillet, he opened his own studio.

Geometric lines are the signature of his innovative approach, fusing his oriental roots, his knowledge of design and the decorative arts as well as his passion for the urban contemporary culture.

Tubes and Wall Shadows re ect this timeless aesthetic which brings the classics back into our homes with a fundamental futuristic twist.

DESK MATRIX

“Sleek continuous light lines with an in nite number of constellations”.

ENG
With DESK MATRIX, our Linescapes System is proposed in pre-con gured rectangular and square shapes, vertical and horizontal. Sleek continuous light lines with an in nite number of constellations to t any table size or interior design need. Available in 2700K or 3000K, black or white nish. Compositions come fully equipped to work right out of the box, 1-10V dimmable driver and its case included.

ITA
Con DESK MATRIX, Linescapes System è proposto in forme rettangolari o quadrate, da installare verticalmente e orizzontalmente. Eleganti linee luminose continue consentono di completare un numero teoricamente in nito di dimensioni per adattarsi a qualsiasi misura di tavolo o ambienti. 2700K o 3000K, niture nera o bianca.
Le composizioni sono complete di tutti gli elementi necessari all'uso, driver dimmerabile 1-10V.

DEU
Mit der DESK MATRIX-Reihe aus unser Linescapes-System sind jetzt bereits fertige Kon gurationen lieferbar, rechteckig und quadratisch, vertikal und horizontal. Durchgehende Lichtlinien in vielen verschiedenen Konstellationen für jede Tischgröße und jedes Interior Konzept. Erhältlich in 2700K oder 3000K, schwarz oder weiß. Die Kompositionen werden bereits vollständig geliefert, sind damit sofort einsatzbereit. Dimmbare 1-10V Driver und Baldachin sind im Lieferumfang enthalten.

FR
Avec DESK MATRIX, le Linescapes System est désormais précon guré avec des formes rectangulaires et carrées, à la fois verticales et horizontales, éclairées en continu, a n de compléter un nombre théoriquement in ni de tailles de tables ou de solutions intérieures. 2700K ou 3000K, en nition noire ou blanche. Les compositions sont équipées de tous les éléments nécessaires au travail, driver dimmable 1-10V et étui inclus.
